The College of Creative Arts Presents

Naoko Tosa

Digital Artist

Exhibition Opening and Artist Talk

The College of Creative Arts, Massey University Wellington and the Embassy of Japan warmly invite you to the Exhibiton Opening and Artist's Talk by Naoko Tosa.

'Genesis' and 'Organic Geometry':

Naoko Tosa, this year's Japan Cultural Envoy, is an internationally renowned Japanese new media artist. Her works have been collected by the Museum of Modern Art, New York and the National Museum of Art, Osaka among others. On display will be two digital works by Naoko Tosa: Genesis and Organic Geometry. In both works she magnifies the intermixing of traditional Japanese pigments mobilised by viscous fluids and dry ice using cutting-edge technology to create an immersive experience out of phenomena normally invisible to the human eye. Naoko Tosa will transform the College of Creative Art's lighting studio into an environment that envelopes the viewer in a sensual exploration of materials and temporality via digital technology.

Artist Talk

Date: Thursday 23 February 2017

Time: 5.30pm - 7.30pm

Place: Level C, Te Ara Hihiko, Massey University, Entrance E - Tasman Street, Wellington

Open to the public 10am - 6pm Friday February 24
