

School Visit Programme 2017 – Queen Margaret College

English Version

Date: 29/06/17

Location: Queen Margaret College

On 29th June 2017 staff from the JICC accompanied by Dr. Kyoko Mikami, National Adviser of International Languages Exchanges and Pathways visited the year 11 Japanese class at Queen Margaret College as part of our revitalised School Visit Programme.

The 55 minute long visit included a short presentation about JICC activities and our staff member's firsthand experience on the JET Programme, followed by a group round of Karuta (a Japanese game similar to snap) and later a fun experience with Kendama (a Japanese toy similar to the classic cup and ball game). The students had a great time playing new games and interacting with the JICC staff.
