

**Grant Contract signing for the
Project for the Upgrade and Provision of Equipment for
the Niue High School Health Clinic
Under
Grant Assistance for Grass-Roots Human Security Projects (GGP)
At Wellington, New Zealand
&
Alofi Niue**

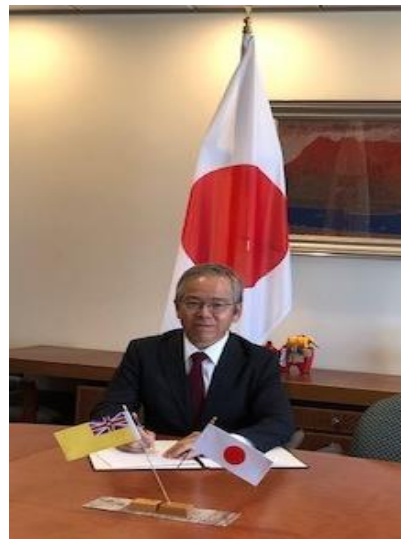

The Grant Contract for the Project for the Upgrade and Provision of Equipment for the Niue High School Health Clinic 2020 under Japan's Grant Assistance for Grass-Roots Human Security Project (GGP) was signed on 4 March 2021 by Gaylene Tasmania, Director General of Social Services in Niue and on 19 March 2021 by Ambassador ITO Koichi in the Embassy of Japan in New Zealand respectively.

With this Project the Government of Japan will provide grant assistance of NZ\$ 176,684 for upgrading the building of the Niue High School Health Clinic and providing medical apparatus (10), furniture and medical equipment (ultra sound cardiac and vaccination fridge). This project aims to contribute to improving the medical environment for Niuean people by strengthening the faculty of the Health Clinic as the "community health centre".

The Project is also expected to help achieve a 100 % immunization rate for the national school vaccination programme and to control and manage the examination and treatment of Rheumatic illness and cardiac diseases through urgently needed medical equipment.
